PROFESSIONAL EXPERIENCE

Lead Frontend Engineer

Oroswap | 03/2025 - 11/2025

- Architected and delivered a **high-performance DEX frontend** on ZigChain, enabling real-time on-chain data rendering with optimized UX and reliability.
- Designed a modular React + TypeScript architecture using Vite**, reducing bundle size by ~25% and improving build and load performance.
- Integrated CosmJS and CosmWasm smart contracts** to support secure wallet transactions, robust error handling, and seamless user flows.
- Implemented token **swaps, liquidity pools, and portfolio dashboards**, including intelligent token discovery (CW20, Native, IBC), **reducing redundant RPC calls by ~35%**.

Frontend Engineer

Comdex | 12/2021 - 02/2025

- Developed and maintained UIs for **multiple live Web3 products**: Harbor Protocol, cSwap, Commodo, and Comdex.
- Integrated **Cosmos SDK & CosmWasm queries** using **Go-based Protobuf**, improving transaction reliability.
- Enhanced onboarding UX, **UI consistency**, and **performance across DeFi applications**.
- Worked closely with protocol engineers to **align frontend logic with on-chain behavior**.

Web3 Frontend Engineer

ALLiN Gaming

- Integrated React UI with **Rust-based CosmWasm contracts** for real-time game state updates.
- Improved gameplay responsiveness and **reduced UI latency** through optimized data flows.
- Implemented **Web3 security best practices** and ensured compatibility across major wallets.
